Seeing Through Another's Eyes

Mrs. Nadav's Pre-1A class learned about the mitzvah of "ואהבת לרעך" by playing the Friendship Game. The game offered an educational experience that was both entertaining and enjoyable at the same time. The first step to playing the game required the creation of an enormous and intricate obstacle course in the classroom. Then the boys were paired up while one of the partners was blindfolded. The student without the blindfold had to then lead his cohort through the obstacle course, helping him along, explaining what to do and making sure that his partner didn't get hurt. The boys loved the experience and gained a deeper appreciation of "ואהבת לרעך" in no time.

Learning Hands On

Rabbi Lowy's fourth graders learned how משה רבינו taught the תורה to the *Yidden*. Pictured below are the *talmidim* demonstrating how everyone learned the תורה four times before going on to teach it to others.

GOING TO THE DOCTOR BEFORE CAMP?

Please make sure to review the message from the Nurse's Office in the Registration Packet that was emailed (and is available online) to see if your son needs any updated health records/immunizations before the start of the next school year. If your son does need anything updated, please take care of that as early as possible and send the updated medical forms to businessoffice@ohrreuve.com so we can have the information when confirming registration and preparing admit cards in the summer.

Connect 4 Connecting Chumash

In Rabbi Pruzansky's second grade, the *talmidim's* enthusiasm for learning is turning into a big game changer. Last week, the students played Connect Four and checkers while reviewing the *Pesukim* at the same time. It was the class against the Rebbe. Those *talmidim* who excelled in participation, got a turn to move a piece on the board for their side. It was a win-win situation for everyone.
