FEEDBACK:

• A few weeks ago, My son mentioned that he was sad the end of the year is coming because he has the best teacher and Rebbe. Over the course of this year, My son has learned how to be responsible about his work and has become a more independent learner. We are so grateful for all the effort you put in to him into this class in general. My son is leaving fifth grade loving yeshiva, loving learning Gemara, feeling confident about himself.

• We have no words to thank you for giving our son such a wonderful year filled with so many amazing extra experiences and opportunities. The Montreal trip, mishna yomi, being part of a beautiful music video, the list is endless.
